

# Extra Problems: Strings I

---

In this module, we covered the algorithms and various problems related to Strings:

- Basics of string hashing
- Rabin Karp algorithm
- KMP algorithm
- Z-algorithm

As a competitive programmer, you should be practising enough problems to master a topic. The [code studio](#) portal offers multiple problems under the tag of 'strings'.

Additionally, we recommend practising these problems from the popular CP platforms to strengthen your concepts further.
